

Release Notes

The following features and bug fixes were released on 20 July 2022.

General

- ADMS login page simplified to enable all users to log in with the same button.
- Removed Training Contracts option from navigation menu for Employers.

Training Contract

- Full time equivalent months are now pre-populated based on dates entered for previous employment with the employer.
- 'Suburb of delivery site' field now validates suburb and postcode is correct on NSW Training Contracts declaration page.
- Fixed issue where 'Casual (for Victoria only)' was appearing instead of 'Casual' on Training Contract PDFs.
- Prior Apprenticeships information is now required to be completed for recommencements.
- Fixed issue with 'Contact ID not found' where the Employer is a GTO.
- Employer primary contact details will pre-fill if available.
- Fixed Registration issue resulting from blank ANZSCO code being incorrectly validated.

Employers Module

- State Contract Managers can now deactivate Employer Profiles.
- State Contract Managers can now update business names for Employer Profiles.
- On creation, Employer Profiles will set the initial contact as primary for TYIMS compatibility.
- Updating a contact to primary will set the contact as the TYIMS employer contact.
- On deletion of a primary contact for an Employer Profile, a replacement primary contact must be set first.
- The Legal Entity name can now be selected as the business name when creating an Employer Profile.
